

ON THIS HOT DAY IT'S TIME TO THINK OF THESE SUMMER COMFORTERS

W. B. Moses & Sons.

7 and 11th Sts.

The word "Bohn" is to refrigerators what "Sterling" is to silver. No housewife questions the real value and economy of sterling ware—no housewife who knows questions the superiority of

BOHN Syphon Refrigerators

(SEAMLESS PORCELAIN LINED)

That you may never regret your refrigerator purchase we earnestly recommend a careful comparison of various "makes," including the Bohn Syphon. If you can, obtain the essential points of merit in each, together with its record of achievement. Such an investigation cannot help but convince you of the superiority of the BOHN over any and all refrigerators on the market.

Look at that unhappy man! He has been making the mistake that strangers sometimes make—

He has been tramping about over the blistering pavements for hours, in quest of comfortable rooms and board.

Now that his collar is melted and his disposition is frayed on the edges, he is going back to his hotel to take a shower—

After his temperature has been reduced to normal he will do what he should have done in the first place—

He will write out a little "WANT AD" clearly specifying the requirements in the case, and will insert said little ad in The Times.

Then, by tomorrow or the day after, he will have some definite idea of what there is for him in this here town!
